

Label Management System (LMS) Digitally transform labeling across your business and supply chain.

The NiceLabel label management system, or LMS, transforms the entire labeling process, delivering ROI in less than 12 months from direct, indirect and missed opportunity cost savings.

It contains everything you need to design, print and manage labels within the business and its extended supply chain. It is a proven solution from the global technology leader with users printing millions of variable data labels.

Why do customers choose our LMS?

- Rapid ROI
- Reduces IT costs
- Reduces quality control costs
- Improves agility and enables faster time to market
- Improves end-to-end operational efficiency
- Extends to supply chain partners
- Future-proof technology platform

Reduce IT costs

- Integrate with your business systems with pre-built connectors
- Empower your business users to design and approve labels
- Minimize reliance on IT for deployment, changes and support

Reduce QC costs

- Digitally transform your quality assurance process with our document management system
- Reduce the amount of time your quality control people spend on paper-based processes
- Eliminate the cost of errors from legacy approaches

Faster time to market

- Make label change requests faster and improve your customer responsiveness
- Eliminate error and unplanned downtime and ship products faster

Our customers typically get ROI from direct costs savings alone in **<6 MONTHS**

82% of our customers experienced cost savings due to error reduction

76% of our customers say they have reduced time-to-market

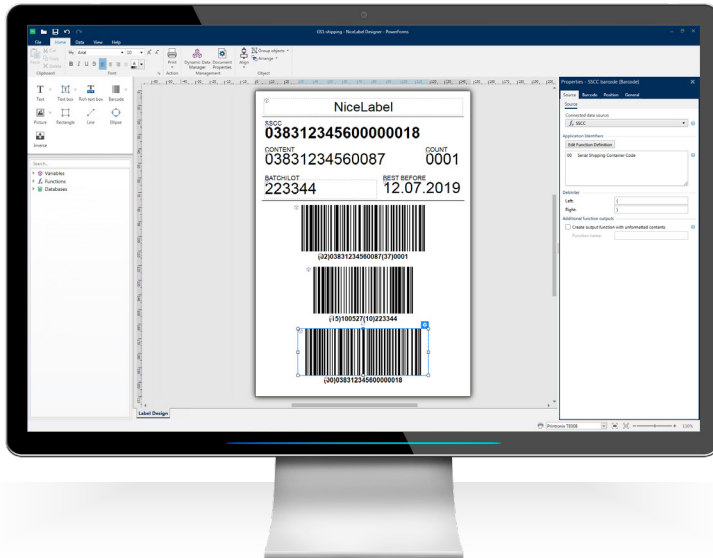

"We called our labeling solution IRIS as it was a messenger of the gods in Greek mythology. It's associated with something being completely transparent and fast, which we thought was an appropriate name for what we wanted to accomplish: delivering critical real-time labels to highly automated manufacturing and logistics environments"

- Michael Buchmann, Solution Architect, Siemens

NiceLabel LMS delivers tangible business benefits

Minimize costs and time-to-market

- 93% of our customers experience direct cost savings
- 82% of our customers experience indirect cost savings associated with quality assurance
- 76% have reduced time-to-market
- The largest savings are typically found in in-direct and missed opportunity cost savings
