

ZXP Series 7 QuikCard ID Enterprise Solution

EVERYTHING YOU NEED TO PRINT PROFESSIONAL-QUALITY CARDS

Set up your card printing system and begin producing photo IDs in minutes with the Zebra Enterprise QuikCard ID Solution — no software expertise necessary. It includes everything you need to quickly and cost-effectively make professional-quality identification, security and commerce-related cards.

Easy and Complete Solution

This easy-to-use, end-to-end solution makes it simple for any size organization to produce high-quality professional ID badges.

The Feature- and Value-Packed Kit Includes:

- Zebra ZXP Series 7 full-color, single-sided or dual-sided card printer, available with or without magnetic stripe encoding.
- Zebra CardStudio™ Enterprise edition software with integrated internal DataBase and quick design templates for fast custom creation of a variety of card types.
- A USB digital webcam for capturing photo ID pictures.
- A genuine Zebra supplies starter kit (one color ribbon, 200 PVC cards).
- Two-year limited warranty.

ZXP Series 7 QuikCard ID Enterprise Solution Specifications

ZXP SERIES 7 PRINTER

- Productivity and Performance**
 Generates near-photographic print quality and color depth using photo-print technology. Fast click-to-drop and batch print speeds with edge to edge card printing.
- Magnetic encoding and bar-code support**
 Enhance the security and functionality of your cards with magnetic stripe encoding and barcode printing. Ideal for access control, time clock applications and more.
- True Colours® ix Series™ high-performance ribbon**
 The ribbons utilize intelligent media technology, which automatically detects and calibrates the printer.
- Cost Efficient ix Ribbons**
 The ZXP Series 7 printer is designed to work with Zebra True Colours ix Series ribbons. The high capacity ribbons reduce costs by delivering more images per roll and feature an improved formulation for printing high-quality images at higher speeds. Many ribbon types are available in two sizes to meet the needs of every printing task.
- Adaptability and control through software**
 Advanced security features allow administrative flexibility for customizing the feature sets and privileges for users. ZXP Toolbox provides advanced control over printer, driver, and software setup; administration; and diagnostics.
- LCD display**
 Easy-to-read 21-character x6-line LCD operator display with configurable soft keys provides operational and routine cleaning information.

CARDSTUDIO SOFTWARE

- Zebra Quick Design templates**
 Drastically reduce the time necessary to create professionally designed cards with high-quality graphics.
- Easy-to-use card designs**
 Quickly allow creation of custom card designs while bypassing the learning curve normally associated with card design software.
- Card Designer**
 Collection of standard card design backgrounds, logos, and design elements (with associated datafiles) for creating custom card designs.
- Enterprise Edition Software features include:**
 - Fully integrated internal database for Secure and easy Card Issuance
 - Advanced Card design features like multicard layout and conditional print elements
- Languages supported**
 English, German, French, Italian, Spanish, Portuguese, Korean, Japanese, Danish, Czech and Traditional and Simplified Chinese.
- Support for Excel® and CSV data import**
 Connect your database to seamlessly import data for multiple card production applications.
- Software features include**
 Full-color design capabilities (single- and double-sided cards); image acquisition (VFW, TWAIN, WIA, DS, File); printing variables (date, time, counters, concatenation and keyboard input); 1-D and 2-D barcodes — complete library; magnetic encoding (ISO, JIS).
- Professional software upgrade available**
 Want even more design flexibility, ODBC External database connectivity and security features? Instantly upgrade to Professional edition for features like role-based, password-protected logins for multiple users and other advanced card design features such as Contact and Contactless SmartCard encoding.
